EXPERIÊNCIA PROFISSIONAL

01/04/2024 – ATUAL Lisboa, Portugal
PHP SENIOR DEVELOPER TTR DATA

Develop and maintain a data analysis system for company acquisitions and mergers using PHP8 and Symfony Framework. Implement new features and resolve bugs in a web scraping data processing platform. Design and optimize data presentation through reports, spreadsheets, and advanced filtering systems. Implemented Docker infrastructure for development team, improving environment consistency and deployment processes. Working with technologies including Twig, MySQL, Manticore Search, GitHub, and JavaScript.

01/07/2023 – 01/04/2024 Coimbra, Portugal
FULL STACK DEVELOPER SIMPLEXDRAW

Development and maintenance of scalable web applications in PHP 8.1 and Symfony 6, ensuring quality and adherence to deadlines. Leadership of mid-level and junior teams, providing technical guidance and support. Instruction of front-end developers in creating intuitive interfaces using Twig, Bootstrap 5, and Figma. Efficient management of MySQL databases. Validation of unit tests and version control through Git.Task coordination using Jira, communication via Slack, and adherence to Scrum methodology.

05/2021 – 02/07/2023 Aveiro, Portugal
PHP SOFTWARE ENGINEER APSIDE

I worked with PHP, HTML, CSS, MySql, Twig, JQuery, with Symfony 4 and 5. At that time, I was working on two Drupal websites, using the Scrum methodology.
In my daily routine, I did my job with VSCode, Git, GitLab, Docker, Figma, Jira, Teams, Slack, and other technologies in an international team, with some people from France, Morocco, and Portugal. Also, in previous projects, we had worked with NodeJs, VueJS, XML, and YML configurations in hexagonal architecture projects.

EDUCAÇÃO E FORMAÇÃO

04/2014 – 10/2018 São Paulo, Brasil
ANALISE E DESENVOLVIMENTO DE SISTEMAS UNICESUMAR

COMPETÊNCIAS LINGUÍSTICAS

Língua(s) materna(s): **PORTUGUÊS**

Outra(s) língua(s):

	COMPREENDER		FALAR		ESCRITA
	Compreensão oral	Leitura	Produção oral	Interação oral	
INGLÊS	B2	B2	B2	B2	B2

Níveis: A1 e A2: Utilizador de base; B1 e B2: Utilizador independente; C1 e C2: Utilizador avançado

COMPETÊNCIAS

Docker | PHP 8 | JQuery | JS | TWIG | MYSQL | Linux | API REST | Symfony | GIT | Asana | Jira
